Leading Specialists in GRP Plastics Fabrication

Pultruded GRP & Thermo Plastic Fabrication

The company has the benefit of over 10 years experience in pultruded G.R.P. materials which is the main focus of its fabrication skills. This, combined with Thermoplastic Welding, On-Site Installation plus its wide ranging design experience including C.A.D., enables O.C.S. Structural Plastics to offer its clients a full package of products and services.

The O.C.S. S.P. range is extensive and includes

- Structures - Platforms, Walkways etc
- Flooring Products - Gratings & Solid Flooring including Hatches, Stairtreads, Trench Covers etc.
- Ladders and Safety Cages including Ships Type or Companion Ladders
- Handrailing and Guard Railing including Screening, Toeplates, Gates, etc.
- Custom or Purpose Built Fabrications
- Plastic Tanks and Vessels
- Plastic Ducting

G.R.P. and Thermoplastic are particularly suited to onerous conditions in industries such as:

- Water & Wastewater Treatment
- Food & Drink Processing
- Chemical Processing
- Oil & Gas Production
- Power Generation
- Paper Production
- Metal Treatment
- Communications
- Construction
- Contracting
- Transport
- Refineries
- Airports
